Update on my cases against Facebook
"Are We Dating The Same Guy?"
("AWDTSG") cyber-terrorists

**Angry women who secretly ruin dating in
Los Angeles and around the world**

/

Just another un-"intelligent" US Navy cyber-
operation to harm the populace

As I have received various inquiries, I'd like to give a quick update on my cases. I am currently suing the cyber-terrorist platform Facebook, its "Are We Dating The Same Guy?" ("AWDTSG") forums, creators, admins, mods, members, moronic and malicious mainstream news outlets like *The Daily Mail*, their fake journalists, as well as other related cyber-psychopaths and respective "entities" (LASC case no.s 23STCV14890, 24STCV16656 and 25STCV02792).

Various anti-SLAPP motions have already failed, including those of Kelly Gibbons aka Kel Culb Gib, Lena Vanderford, Vanessa Valdes and Amy Blalock. The only reason more anti-SLAPP motions have not failed by now is because:

- 1) many of these Facebook AWDTSG criminals are still being unmasked, identified and served;
- 2) various anti-SLAPP motions have been calendared, but not yet heard; and, last, but not least:
- 3) judicial ignorance and corruption.

As of today 16 July 2025, my lawsuits include, but are not limited to:

Facebook, Inc./Meta Platforms, Inc.

"Are We Dating The Same Guy" ("AWDTSG") forums, their military front woman: "Paola Sanchez" and other anonymous creators, admins and mods

The Daily Mail, its Associated Newspaper LTD and "journalists" Peter Sheridan et al.

Facebook AWDTSG member Kelly Gibbons aka Kel Culb Gib

Facebook AWDTSG member Lena Vanderford

Facebook AWDTSG member Elly Shariat

Facebook AWDTSG member Olivia ("Liv") Burger

Facebook AWDTSG member Vanessa Valdes

Facebook AWDTSG member Ainka Wiz

Facebook AWDTSG member Kelyn Rodriguez

Facebook AWDTSG anonymous group members

And Does 1 – (whatever is necessary)

The above-noted cyber-terrorists are presently being sued in my pending lawsuits for the following causes of action:

Cyberbullying

Doxxing

Defamation – libel; and defamation libel per se and per quod

False light

Misappropriation of name and likeness

Intentional infliction of emotional distress

Unjust enrichment

**Sex-based discrimination in violation of the Unruh civil rights act
(Cal. civil code § 51**

Gender Violence In Violation Of California Civil Code § 52.4

Civil harassment

Negligence

**Strict product liability, violation of bus. and prof. § 17200 and
violation of Cal. consumer legal remedies act, Cal. Civ. § 1750 et
seq.**

Abuse of process and malicious prosecution

Civil extortion

And

**Conspiracy to commit the above-noted civil torts as well as
declaratory relief**

**Who are these women?
Why do they assault us in secret?**

As I have stated and proven in countless pleadings, the above-noted Facebook AWDTSO criminals conspired to doxx, stalk, harass and defame me to millions of Facebook users. Further, they did so while keeping it a secret from me. They intentionally and maliciously never notified me. They strategized how best to keep me in the dark to maximize their harm.

Does this sound like people interested in public debate?

After I obtained evidence of said doxxing and severe defamation, Facebook and its AWDTSO creators, admins and mods refused to allow me to join any of these groups to defend myself.

Does it sound like Facebook is interested in public debate?

Does it sound like Facebook AWDTSO forums are interested in public debate?

Only after I reported all these cyber-crimes to the LAPD, FBI and Facebook were ALL the comments and threads deleted.

Do I have to keep asking if any of this sounds like an honest public debate?

Since none of these online-terrorists care about free speech, public debate, much less protecting women, then what is it about which these angry women care?

Before jumping to the obvious conclusions that:

- 1) this is just another mob of rejected, scorned women; and
- 2) they are the latest batch of useful idiots in our new age of cyber-eugenics thinly masked by online dating apps funded by anonymous trillionaire psychos, let's ask a more basic, simple question:

Who are these angry women?

Here is an excerpt of what we know, all of which is already public information that each of these defendants have willfully published themselves and/or has appeared properly in public court documents since the advent of these lawsuits in 2023:¹

¹ Many of these defendant-demons like Gibbons, Valdes et al. have already tried and failed countless times to obtain protective orders and restraining orders. Judges are starting to identify their heinous hypocrisy. Whereas they stalk, doxx

Facebook AWDTSG member Kelly Gibbons aka Kel Culb Gib

I have never met this woman. After exchanging episodic texts with her for a few weeks in 2022, my gut told me that Gibbons was catfishing me. I stopped texting her and blocked her. Soon thereafter she doxxed, cyber-stalked, defamed and cyberbullied me on Facebook AWDTSG forums to millions of people while keeping me uninformed. Then Goblin published a GoFundMe webpage whereupon she continued to doxx me and falsely claimed I stalked a woman who I have never met. Ghoein then promoted these severely harmful allegations on news outlets to billions of viewers. This resulted in anonymous Facebook accounts maliciously impersonating me, death threats and people stalking me where I live. By now she has admitted under oath that Gibbons conspired to cyber-stalk, doxx, defame and cyberbully me exactly as suggested by all my complaints and pleadings.

and harass us in secret, they scream like demons as soon as anyone refers to their already public information.

Facebook AWDTSG member Elly Shariat

I have never met this woman. I have no idea who she is. Shariat falsely claimed to millions of Facebook users and then billions of viewers online that she was stalked and assaulted and suffered PTSD. But for years now Shitrat has failed to produce a shred of evidence in support of her claims. Her only desperate and childish hope is evading service of my lawsuits, which she can only continue with embarrassing judicial corruption. This resulted in anonymous Facebook accounts maliciously impersonating me, death threats and people stalking me where I live.

Facebook AWDTSO member Lena Vanderford And her lawyer Mark Searcy

I have no memory of this person. Vanderford alleges I stood her up for a café at 8:00 am in 2016, but has no evidence to support this. Vanderford cyber-stalked, doxxed, defamed and cyberbullied me on Facebook AWDTSO forums for years. Then doxxed and defamed me to billions of viewers online with a false story wherein she alleges I stalked a woman who I have never met. Vanderford's anti-SLAPP motion has failed. This resulted in anonymous Facebook accounts maliciously impersonating me, death threats and people stalking me where I live.

Facebook AWDTSO member Olivia ("Liv") Burger

After texting a few times, I met Burger in person and immediately knew that she had cat-fished me. She did not look like her pictures. But because I am a kind person, I came up with an excuse that I had to leave i.e. to let Burger down gently. This happened quickly, within 15 minutes, as I refused to go on a date with her. Burger then wasted no time cyber-stalking, doxxing, harassing, defaming and cyberbullying me on Facebook AWDTSO forums. She even conspired with anonymous Facebook AWDTSO members who plotted to stalk me wherever I went and wear t-shirts with the face of my girlfriend who had passed from cancer printed on them. Burger has further been caught conspiring with the other defendants to hire decoys to unlawfully entrap me. Burger also continued to doxx and defame me to billions online with the above-noted false story of stalking a woman who I have never met. This resulted in anonymous Facebook accounts maliciously impersonating me, death threats and people stalking me where I live.

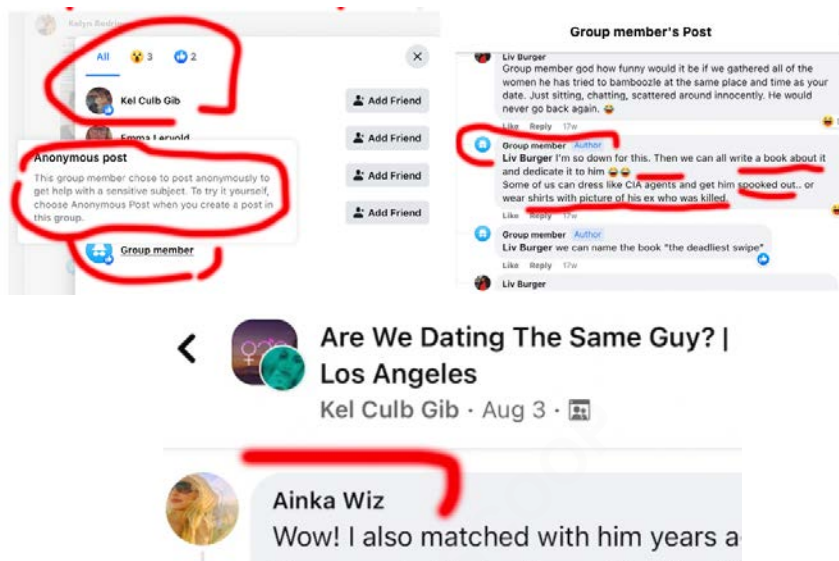

Facebook AWDTSG member Vanessa Valdes

After a two (2) minute late-night text-exchange in 2019 my gut told me Valdes was sketchy and I rejected and blocked her. Valdes then cyber-stalked, doxxed, harassed, defamed and cyberbullied me on Facebook AWDTSG forums. Valdes conspires with other defendants such as Olivia Burger mentioned above. Valdes further doxxed and defamed me to billions online with the above-noted false story of stalking a woman who I have never met. This resulted in anonymous Facebook accounts maliciously impersonating me, death threats and people stalking me where I live.

Facebook AWDTSO members Ainka Wiz (Anonymous/Fake), Kelyn Rodriguez and other anonymous Facebook AWDTSO members

The above-noted defendants conspired with other Facebook AWDTSO losers like Kelyn Rodriguez (another woman I do not know and have never met) and countless other fake and anonymous Facebook AWDTSO users, all doing the same and worse than those acts noted above.

This is but an excerpt of these heinously savage and heinously hypocritical defendants, many of whom are useful idiots.

Nevertheless, it is my right to obtain to obtain discovery and as much clarity as possible regarding this never-ending conspiracy to cyber-stalk and cyberbully my person.

Therefore, if anyone has further information on these individuals to keep our society safe from these psychopaths, please sign up for <https://sickoscoop.com/> and/or email me: 2@lucasmurrey.io and/or support me in my research

Why does Facebook refuse to allow the voices of victims like myself be heard?

Although I first diligently tried to join these Facebook AWDTSO groups to defend myself against the accusations of these Facebook AWDTSO losers, Facebook and its AWDTSO groups, their creators, admins and mods refused to allow me to join any of its AWDTSO forums.

On Facebook you and everyone you love can be cyber-stalked, cyberbullied and defamed to millions of Facebook viewers in Facebook groups while you and your loved ones will never be allowed to join these Facebook groups to defend your good names and reputations.

Since Facebook and its AWDTSO groups maliciously offer no remedy, I then was forced to contact the LAPD and FBI and file the above-noted lawsuits. This means that **Facebook is itself an anonymous criminal organization, in particular...**

Facebook and Facebook AWDTSO creators, admins and mods extort money from their voiceless victims

Although reddit.com is in essence no different than any other mainstream military surveillance front, a few people there are waking up to the fact that Facebook and its AWDTSO forums extort money from its silent victims. This means that Facebook and its AWDTSO forums function exactly like previous revenge-porn platforms. What is a revenge-porn platform?

Meet Cheaterreport.com

As I have also made clear in previous court documents, my girlfriend and I were anonymously stalked, harassed and cyberbullied on the

revenge-porn website Cheaterreport.com ("Cheaterreport") from 2016 through 2018.

Worse, we were also extorted by Cheaterreport. We had to pay thousands of dollars to various anonymous "third-parties". Later, I discovered these to be, in part, an individual named Domingo Rivera: a navy-cyber-security governmental employee with highest level security clearance who lives in Virginia walking distance from each of the headquarters of all 18 "intelligence" agencies. Rivera works closely with another loser Aaron Minc who lives in Ohio in the heart of Rockefeller/Rothschild mafia.

This is the scum with whom Sherrie and I had to "interact" and to whom we had to pay money to remove harmful, anonymous postings on Cheaterreport. This is when we needed this money to fight the cancer to which she succumbed in 2018.

As alluded to above, after her passing, I began to unmask those responsible for Cheaterreport. To repeat: they are governmental employees linked to United States navy cyber-security agencies and with highest level security clearance.

If you are dumb enough to think that anonymous money-tyrants who control social media apps and the mainstream media while they hide behind a game of nation-states have your best interest in mind, then you might ask yourself: why are governmental employees behind anonymous revenge-porn websites extorting us? And why have they never been prosecuted? One thinks of every wall street bank after 2008.

Using evidence I obtained that Facebook received money from Cheaterreport for advertising I subpoenaed Facebook to find out more about the identity of the anonymous/governmental revenge-porn website. But the judge in this case (LASC case no. 19SMCV00935) unlawfully denied compelling my lawful subpoena. She wrongfully claimed that forcing Facebook to give up the identity of Cheaterreport would violate the "privacy" of Cheaterreport. Because it remained unclear whether Cheaterreport was a person or a business, the logic

of judge, even within our currently corrupted legal landscape, made no sense. Businesses cannot claim privacy. Nevertheless, we have to ask:

Why is the revenge-porn terrorist app Facebook along with its AWDTSF forums not prosecuted?

In a way, I suppose I have already answered this question. But I invite everyone to contact any and all city and/or county and/or state district attorneys' offices. Ask them why they are allowing criminal military fronts like Facebook and they AWDTSF forums to experiment on us? If you can try and/or actually vote any of said "attorneys" who fail to act lawfully out of office, that would also be an effective way of applying pressure.

But there must be something else that we can do right now instead of just waiting on these controlled puppets?

The Solution: let them devour themselves
/
Opt out of Facebook and AWDTSF-related apps
+ use only non-anonymous platforms like
Sickoscoop

Everyone knows that Facebook and its AWDTSF forums have nothing to do with protecting women, nor public safety, much less civil debate. This is why they act anonymously. They know we know.

Our next step is to stop giving them our data and starve them to death. This is that of which they are most terrified. They go to extraordinary lengths to extort our data from us. This is why this aggressively hide

the grotesque reality of their adrenaline-dumping pro-additions algorithms.

We need to opt out.

We do this by choosing a platform like <https://sickoscoop.com/> that is not anonymous. Even the above-noted defendant demons and psychopaths can join <https://sickoscoop.com/>. If they are truly interested in a public debate and protecting women, then why are they unable to identify who they are and stand behind what they say? Only demons chose dark over light.

It is my understanding that the Chicago federal lawsuit against Facebook and its AWDTS groups and members has been dismissed summarily. It seems that my cases are the only currently pending lawsuits against these psychopaths.

Is this true?

If anyone remembers, the mainstream media went into frenzy in 2024 when Valdes' 2023 case was dismissed when her anti-SLAPP motion was granted by another sick judge.

And yet, the mainstream media has remained silent when Valdes' anti-SLAPP motion against my 2024 cross-complaint failed earlier this year in 2025. Fancy that.

Now I am suing Valdes and others noted above for cyberbullying and conspiracy to cyberbully.

Does anyone know of any other similar cases?

Are my cases against cyberbullying and conspiracy to cyberbully the first ones historically in California and the United States?

I know psychopaths. I have been fighting the demons driving these angry women for years. They suffer from a false confidence in the quickening of evil that we see in our time that coincides with an acceleration of money and anonymity. They are not going to stop. This is why it is vital that we also do not stop.

We cannot do it without you. Use this new, free and safe data-engine to help the voiceless victims around the world, including those of Facebook and its AWDTSO forums.
